GAME FEATURE

• Be awarded with multipliers of up to x1000 during the Bonus Feature!

BONUS FEATURE

6 or more Prize symbols appearing anywhere in any main game spin will trigger the Bonus Feature with 3 bonus spins.
During the Bonus Feature, an additional row with a x10 multiplier is added to the bottom of the reels, and only Prize symbols with values ranging from 0.2x to 50x of the current bet amount will appear.
At the start of the Bonus Feature, 3 bonus spins are awarded and every new Prize symbol will reset the bonus spin counter back to 3.
Any Prize symbol that appears will move upward along its respective reel to the highest empty symbol position.
When an entire row is filled with Prize symbols, the value of each Prize symbol in that row is multiplied by the multiplier displayed on the rightmost reel.
Any row with all symbol positions filled will be removed from the reels, with the multiplied prizes collected at the bottom of the reels. All remaining rows will then shift upward before a new row with a higher multiplier is added to the bottom of the reels.
The multipliers for the first row to the twelfth row are x2, x3, x5, x10, x20, x30, x50, x100, x200, x300, x500 and x1000 respectively.
After the row with the x1000 multiplier is added, no more additional rows will be added to the bottom of the reels.
The Bonus Feature ends when the bonus spin counter reaches zero or when all 20 symbol positions are filled with Prize symbols. All prizes on the reels and the collected prizes at the bottom of the reels will then be awarded.
